	<input type="checkbox"/> Part	<input type="checkbox"/> Slab	<input type="checkbox"/> Fully finished	

NOTES (changes to plans, etc.)

PLEASE READ CAREFULLY!

Page 2 of this form is a break-down of the construction costs for the above described building project. Please take the time to research and complete this list carefully. Accuracy is very important! Along with the building plans, the cost break-down will form the basis upon which the appraisal will be completed. The costs in the list should be based on Contractor's costs and estimates. Each component of the list should contain labour as well as materials regardless of whether you will be doing some work yourself. The list of costs will be used to calculate any advances during construction. Credit will only be given for those items that are installed and form an integral part of the building. Credit will not be given for supplies that are purchased but not installed, even if they are on the premises. The list on page 2 gives some indication of the items to consider. The list is meant to be a guide only and some items may not apply to your project. Additional space has been provided to add items if necessary. If there are any questions about how to complete this form, please contact our office.

COST BREAK-DOWN

<i>ITEM</i>	<i>NA ✓</i>	<i>COST (\$)</i>	<i>COMMENTS</i>
